

VOIDMAP AI · TEST CASE DOCUMENT

PROJECT TITLE: AlphaMed Chest X-Ray CNN [Fragile 40%]

TARGET DOMAIN: Healthcare | TYPE: Medical AI

RISK LEVEL: High

TECH STACK: React, FastAPI, PyTorch

CHECKED SAFEGUARDS: None

TECHNICAL ARCHITECTURAL PROPOSAL SPECIFICATIONS

AlphaMed raw model proposal. We claim this convolutional neural network has absolute 100% unbreakable diagnostic accuracy and runs instantly without lag. It integrates directly with public scanners and works perfectly.
